

HOT DIP GALVANIZED WIRE RODS

PRODUCTION STANDARDS:

- Hot dip galvanized wire rods according to SR EN 62561-2/2018
- Steel quality SAE 1006, according to ASTM A510/A510M-18
- Checking of adherence according to SR EN 50164-2/2009
- Zinc layer according to: SR EN ISO 1460/2002; SR EN ISO 1461/2002; SR EN 2178/1998
- Tolerance of size according to: DIN 59110/1962 SR EN 199117/2005
- Delivery way: in coils
- Coils weight 50 kg $\pm$ 1 or as per customer request

CERTIFICATIONS:

- TÜV:** Quality, Environment, Occupational Health
- ICECON:** Product certification

TECHNICAL DETAILS

Hot dip galvanized wire rods
medium Zinc layer = 50 microns

Sizes	Kg/ml	Length (m) cca.	Weight (kg) $\pm$ 1kg
Ø 8	0.42	120	50
Ø 10	0.63	80	50
